# Safewheel®

**Product:** Safewheel® Yellow 10 Stud  
**Product Code:** SWY

**Function:** The Safewheel® combines a retainer and a protective cap in the form of a ring. It provides a retaining function for the wheel nuts and protects them from external elements such as water, dirt, road salts and rust. The Safewheel® is fitted onto the wheel by using a wooden hammer and removed with a special removal tool.

**Material:** High-grade virgin polymer to ensure product quality and robustness, this allows the product to be re-used multiple times.

**Operating temperature:**

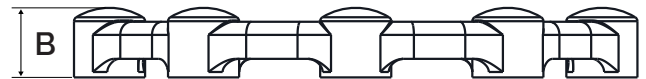

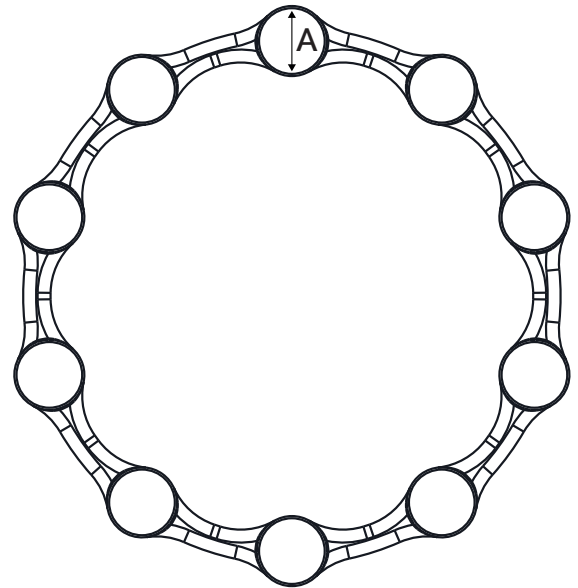

From -40°C to +120°C

**Application:** Mainly for commercial vehicles such as trucks and buses.

**Main benefits:** Improves the safety of nut fittings. Enables quick and easy visual checks and monitoring. Reduces maintenance costs by saving time and money. Helps retain wheel nuts in place. Safe for pedestrians and cyclists.

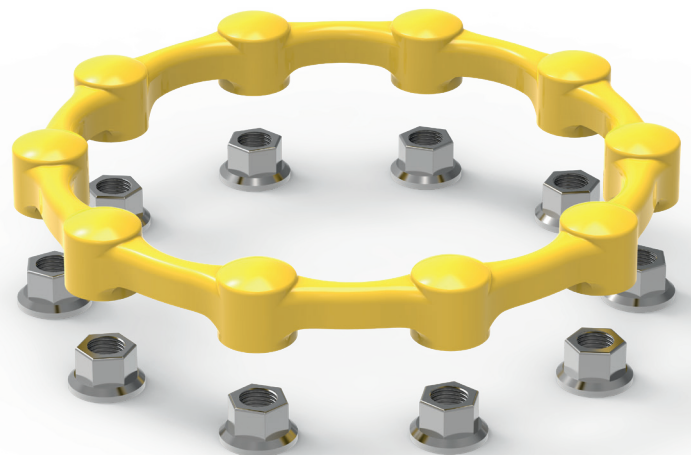

**Sizes:** For the size guide please see separate sheet.

**Colour:** Other colours are available subject to quantity.

**Specifications**

A = 45 mm  
 B = 44.5 mm

SPECIFICATIONS ARE VALID FOR ALL COLOURS IN THIS SIZE
