Safewheel Twin[®]

Product: Safewheel Twin[®]
Yellow 33mm
Product Code: SWTWY33

Function: The Safewheel Twin[®] combines a retainer and a protective cap, which is fitted onto two adjacent nuts. Five of them are required to cover the whole wheel. Safewheel Twin[®] provides a retaining function for the wheel nuts and protects them from external elements such as water, dirt, road salts and rust.

Material: High-grade virgin polymer to ensure product quality and robustness, this allows the product to be re-used multiple times.

Operating temperature:

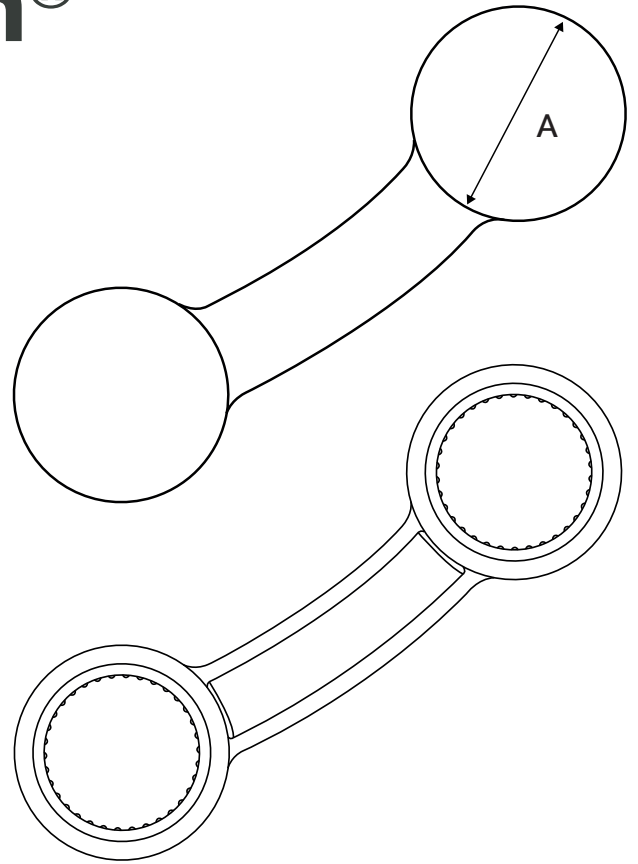

From -40°C to +120°C

Application: Mainly for commercial vehicles such as trucks and buses.

Main benefits: Improves the safety of nut fittings. Enables quick and easy visual checks and monitoring. Reduces maintenance costs by saving time and money. Helps retain wheel nuts in place. Safe for pedestrians and cyclists.

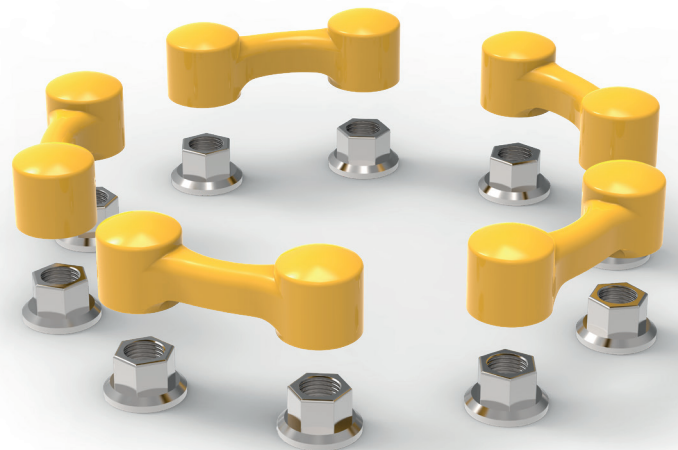

Sizes: 32 mm 10 stud 335 PCD and 33mm 10 stud 335 PCD.

Colour: Available in silver grey, yellow, red and royal blue. Other colours are available subject to quantity.

Specifications

A = 45 mm
