

## WORKLIGHTS

## E92005W

## **Round LED Worklight**

ECCO's E92005W LED worklight is a reliable and high-quality option for commercial vehicles. It has 1,500 RAW lumens and a flood beam to illuminate the area providing maximum safety and visibility at night. The E92005W is easy to install with a single bolt mount and can be placed behind the cab of a tow truck, on the headache rack of a work truck, or on the rear of a construction vehicle, among other applications. This worklight features a durable polycarbonate lens and a low amp draw, allowing it to work for a longer time without draining the battery.
